

We make

learning plain sailing

Adobe Photoshop Intermediate

As all our courses are tailored to the individual - this course content may vary.

Overview

Adobe Photoshop is an industry standard editing software for photographs - at its most basic it is used for resizing, converting and reformatting photos. But it has the potential to create powerful images and amazing photographic effects. You will gain first hand experience of this amazing software in a modern studio which is set in a tranquil, garden setting. The days training can be tailored to your requirements, so feel free to bring along artwork files so the practice can be based on real examples that are specifically connected to your needs. Your tutor is an experienced practitioner and holds a Certificate in Education so you will be getting first hand industry knowledge taught by a qualified teacher.

Course duration:

1 day - from 10-4pm

Location:

Amber Designs, 9 Kings Park
Canterbury, Kent CT1 1QH

Requirements

Good Mac or PC skills
Attended the 'Introduction to
Photoshop Course'

Price pp: £250 + vat *

* Price is per person per day and includes refreshments, full lunch and post-training support.

Course Content

Creating and editing duotones

- Create mono or duotones
